

H I T E C

Best In SHOW

The Guestroom 2010 exhibit at HITEC was brimming with innovative solutions to age-old problems. Hospitality Financial and Technology Professionals' brainchild showcased 55 technologies, ranging from alarm clocks to robotic pets, virtual concierges to self-cleaning showers. The following products are *Lodging* editors' favorites from Guestroom 2010.

The sun is warm, you're fanned out on chaise lounge, the view is stunning, and your drink is... empty. But no need to get up. Featuring a touchscreen interface, proprietary software and Wi-Fi communications, the intelliChaise Personal Ordering System allows guests to place orders for food, beverage, retail items, or services directly from their chair using customized wireless handheld devices. The system interfaces with a hotel's POS and HMS. Guests who need immediate attention can press the "call server" button to alert staff.
